

The Heart Towel

To make this you will need: 1 towel, ¼ yard red fabric, ¼ yard Heat & Bond Lite

Trace the word "Love" (reverse provided) and the heart on the paper side of the fusible web. We used *Heat & Bond Lite*. Leaving a ¼" seam allowance around, cut out the traced word and heart from the fusible web. Iron this to the **WRONG** side of your fabric. Now, cut the paper (fused to fabric) on the design line. Carefully peel the paper from the fabric and press the word and the heart on the towel (glue side down). Top Stitch around the appliques and voila, you are done!
