

Knit Infinity Scarf

By Samantha Roshak

Materials:

2 yards knit fabric

Thread

Instructions:

- Fold fabric, right sides together, lengthwise (selvedge edges together).
- Square up both raw edges. You will have a long rectangle.
- Sew $\frac{1}{2}$ " seam the length of the fabric, along the selvedge edge. This creates a two-yard tube.
- Place your hand through center of the tube, grasp the raw edge, and pull it inside the tube until both raw edges meet and **right sides of fabric are together**. You now have a one-yard tube with both raw edges at one end and a fold at the other.
- Sew $\frac{1}{2}$ " seam along the two raw edges leaving a 3" opening.
- Turn scarf right side out through opening.
- Hand stitch opening closed.
